

ENDUROCROSS

This year, Top End Promotions is proud to host its first Endurocross National in Alberta at the 11th Annual Western Canadian Amateur National Motosports Championships.

Originally started in Europe and just recently introduced to North America, Endurocross has become the new high speed, high carnage craze, bringing extreme off-road adventure to the man made arena. Endurocross is a compact and technically demanding race fusing the indoor spectator sport Supercross with the action of a long distance endurance race. The course is constructed with realistic obstacles normally encountered in the woods like massive logs, monstrous rocks, tires, cement pieces and sand jumps. Watch as the adventurous and the brave fight through the pack searching for alternate lines around downed riders and brutally rugged terrain on a tight track. This challenging and tenuous race captures the true skill level of off-road racers and has the ingredients for exciting situations.

"As we see more environmental pressure on public land we will see the closure of these lands and the people will have to ride this type of course to get close to what they use to ride in the mountains! Endurocross will be the future of off road riders that are looking for extremes."

~Gerry Nelson,
Top End Promotions

ENDUROCROSS SCHEDULE

(subject to change – dependant on entries)

DAY ONE THURSDAY, JUNE 26, 2008		DAY TWO FRIDAY JUNE 27, 2008		DAY 3 SATURDAY, JUNE 28, 2008
